

Be somebody who knows the facts.

Giving Blood After Getting A Tattoo

Did you know you are now eligible to give blood only 2 weeks after getting a tattoo if you received your tattoo at a licensed facility in Michigan or another state that regulates body art facilities?

Most states now have regulations for tattoo parlors which make getting a tattoo safer. Michigan is one of those states. As long as your tattoo is healed without infection AND you received the tattoo at a licensed facility in a regulated state, you may be eligible to donate just 2 weeks after receiving the tattoo. When coming in to donate, you will be asked a few quick questions (see right).

For a complete list of regulated states, visit <http://www.miblood.org/testingsafety>

Questions About Your Tattoo

- In what state did you get your tattoo?
- Was the facility licensed?
- Has it been more than 2 weeks since you received your tattoo?
